6-2006**

3. ACADEMIC PROGRESS

Lecturer in Neurology, Neuroscience section, Medical Department, Aristotelian University of Thessaloniki, Greece---9-11-2004(election)----appointment(12-10-2005)

Assistant Professor in Neurology, Neuroscience section, Medical Department, Aristotelian University of Thessaloniki, Greece----6-7-2010(election)----appointment(15-12-2010)

Permanent Assistant Professor in Neurology, Neuroscience section, Medical Department, Aristotelian University of Thessaloniki, Greece---- 3-6-2015(election)----appointment(21-10-2015)

4. CLINICAL WORK

Since my appointment as a lecturer (12-10-2005) I undertook and continue to undertake to the present day clinical duties in the A Department of Neurology, AHEPA Hospital, consisting of everyday management of patients, active running of internal and external calls and participation in the general ward rounds of the Professor and Director of the Department. In addition, many times, I replaced the Director of the Department in his clinical duties, during his absence.

Since my appointment as a lecturer(12-10-2005),) I undertook and continue to undertake to the present day, duties as a Neurology Consultant, in the A Academic Cardiology Clinic, AHEPA Hospital, Aristotelian University of Thessaloniki, Greece (reference 19α), and also in the A Academic Propaedeutic Pathology Clinic, AHEPA Hospital, Aristotelian University of Thessaloniki, Greece. In the latter , since 2013, I act as a Consultan Neurologist in the Intensive Care Unit for the stroke sufferers.

Since 2013, I undertook and continue to undertake to the present day, duties as a Neurology Consultant in the Intensive Care Department of Anesthesiology, AHEPA Hospital, Aristotelian University of Thessaloniki, Greece, concerning the diagnosis of brain death.

Since the 1-7-2006 I organized, with the assistance of the Director of the Department, and continue to run to the present day, the Neurovascular Ultrasound Laboratory, A Neurology Department, AHEPA Hospital. In this laboratory, the cervical and cerebral arteries of stroke sufferers are being evaluated with a Triplex device. .

In addition, this laboratory offers the service of transcranial Doppler, which allows the continuous monitoring of blood flow velocities of cerebral arteries in stroke sufferers.

Since the 1-9-2006, I organized, with the assistance of the Director of the Department, and continue to run to the present day, the outpatient clinic of the A Neurology Department, AHEPA Hospital, Aristotelian University of Thessaloniki, Greece, for stroke sufferers.

Since 2013, I participate in the running of the outpatient clinic of botulinum toxin, A Neurology Department, AHEPA Hospital, Aristotelian University of Thessaloniki, Greece .

4. TEACHING WORK

Since the academic year 2006-2007 to the present day, I participate: 1) in the training of the medical students of the 8th semester and the 6th year, which includes lectures on Neurology in lecture theaters on cerebrovascular accidents and vascular ultrasound within the domain of Neurology and practical teachings in Neurology on patients in neurological wards and in lecture theaters, and 2) in the practical exams in the subject of Neurology, A Neurology Department, Aristotelian University of Thessaloniki, Greece. In addition, since the academic year 2011-2012 to the present day, I am in charge of the training of the medical students of the 8th semester, actively participating in the formation of the teaching programme and in the final examinations..

Since the academic year 2006-2007 to the present day, I participate in the training of the trainees in Neurology in the A Neurology Department, AHEPA Hospital, Aristotelian University of Thessaloniki, Greece, focusing on General Neurology and mainly on cerebrovascular accidents.

Since the academic year 2006-2007 to the present day, as a doctor in charge of Neurovascular Ultrasound Laboratory and the outpatient clinic for the cerebrovascular accidents, A Neurology Department, AHEPA Hospital, Aristotelian University of Thessaloniki, Greece, I am training in practise the medical students and the neurology trainees in Neurovascular ultrasound and Stroke.

Since the academic year 2006-2007 to the present day, I participate as a coordinator in a weekly teaching meeting of the A Neurology Department and Radiology Department, AHEPA Hospital, Aristotelian University of Thessaloniki, Greece. This meeting, by analysing clinical neurological cases of neuroradiology content, aims in the training of the trainees in Neurology and Radiology..

Lectures in post-graduate programmes in the Department of Physical Education Science and Athletics, Aristotelian University of Thessaloniki, Greece((2006-Cerebral trauma, 2007-Vascular dementia, 2008-Cerebrovascular accidents: epidemiology, aetiopathology, outcome, 2009-Clinical manifestations of temporal lobe diseases, 2010-Clinical manifestations of frontal lobe diseases, 2011-Clinical manifestations of occipital lobe diseases, 2012-Clinical manifestations of parietal lobe diseases, 2013-Cerebral trauma,, 2014-Vascular dementia)

Lecture in post-graduate programme of Propedeutic Pathology Clinic, AHEPA Hospital, Aristotelian University of Thessaloniki, Greece, on the issue: acute confusional state, coma(18-11-2009).

Lecture in post-graduate programme of Propedeutic Surgery Clinic, AHEPA Hospital, Aristotelian University of Thessaloniki, Greece, on the issue: asymptomatic disease of the carotid bulb: analysis of the data (7-12-2012).

Lecture in post-graduate programme of Propedeutic Pathology Clinic, AHEPA Hospital, Aristotelian University of Thessaloniki, Greece, on the issue: asymptomatic cerebral lesions and cognitive impairment.(3-12-2014).

Lecture in the programme for nursing specialties for the academic years: 2011-2012(cerebrovascular accidents), 2012-2013(cerebrovascular accidents), and 2013- 2014-2015 (cerebrovascular accidents, accidents and emergencies in Neurology). The

programme included final exams annually with an active participation of mine in them

Lecture on the issue: Functional morphology of the Central Nervous System, for the ΠΠΟΜΕΣΙΙΙ students, Aristotelian University of Thessaloniki, within the framework of the subject: Functional Morphology.

Lecture in post-graduate programme of ENT Departement, AHEPA Hospital, Aristotelian University of Thessaloniki, on the issue: Vertebrobasilar Insufficiency-Myth of Fact. Thessaloniki, Greece----15-12-2014

Lecture in the programme for nursing education on Cerebrovascular Accidents, AHEPA Hospital, Thessaloniki, Greece---2-12-2015
